

25 JAHRE ALTERNATIVER NOBELPREIS

Salzburg, 12.06.2005

TO THE MAYORS OF THE WORLD
FROM RECIPIENTS OF THE RIGHT LIVELIHOOD AWARD

As Recipients of the Right Livelihood Award (RLA) the abolition of nuclear weapons is one of the issues that we have been working for in many different ways over the years.

We strongly support Mayors for Peace, an initiative presided over by the Mayors of Hiroshima and Nagasaki and supported by the Mayors of cities like London, Berlin and Vienna, as well as many smaller cities and towns. This initiative is an important way for communities around the world to raise a powerful voice for the protection of their people from the threat of nuclear weapons and to remind their political leaders at a higher level of the disarmament promises they made under the Nuclear Non-Proliferation Treaty. It is an initiative that has ECOSOC status with the United Nations, and now has the support of more than 1,000 mayors around the world.

We therefore encourage you to become a Mayor for Peace as soon as possible and add your voice to the worldwide movement for the abolition of nuclear weapons.

Signed by all the Recipients of the Right Livelihood Award at the 25th Anniversary Conference.
